

SHEIKH SHAHMEER HASSAN

Project & Design Engineer

Ras Al Khaimah, UAE | xhahmeer4@gmail.com | (+971) 521100713 | Date of Birth: 3rd January 1998 | Marital Status: Single
<http://linkedin.com/in/sheikh-shahmeer-hassan-23b09b135> | UAE Driving License: 298987

Postgraduate Mechanical Engineer with **6+ years of progressive experience** leading multidisciplinary engineering, procurement, fabrication, and EPC projects across the **UAE, Türkiye, and Pakistan**. Currently serving as **Project Head – Design & Executions**, responsible for managing engineering, procurement, production, QA/QC, tendering, and project delivery for industrial and oil & gas infrastructure.

Experienced in delivering complex mechanical systems including mobile fuel stations, storage tanks, skid-mounted process systems, pressure vessels, fuel transfer systems, and customized industrial equipment for major clients including **ADNOC, Emarat, and ENOC**. Strong expertise in project planning, engineering management, tendering & bidding, procurement, vendor management, fabrication oversight, FAT/SAT, commissioning, and regulatory compliance with **ASME, API, UL, NFPA, ADR, and UAE authority standards**.

CORE COMPETENCIES & TECHNICAL SKILLS

• EPC Project Management	• Project Planning & Scheduling	• Engineering Design	• Engineering Calculations		
• Tendering & Bidding	• Cost Estimation / BOM / BOQ	• Vendor Management	• Risk Assessment		
• Industrial Manufacturing	• Fabrication Supervising	• Oil & Gas Projects	• Budget Control		
• FAT / SAT / Commissioning	• Team Leadership	• Problem Solving	• QA/QC Management		
Engineering Software:	• DS SolidWorks	• PTC Creo	• AutoCAD	• ANSYS Workbench	
Project & Planning:	• MS Projects	• Primavera P6	• ERP Systems	• Microsoft Office Suite	
Engineering Standards:	• ASME VIII / XII	• API 650 / 12F	• UL 142 / 2085	• NFPA 30	• ADR / EN Standards
Engineering Systems:	• Storage Tanks	• Fuel Transfer Systems	• Mobile Fuel Stations	• Skid-Mounted Systems	
• Pressure Vessels	• Piping Systems	• Hydraulic Systems	• Pneumatic Systems	• Fuel & Fleet Automations	

WORK EXPERIENCE

Project Head – Design & Executions

Meta Green Middle East FZ LLC – Ras Al Khaimah, UAE

February 2024 – Present

- Lead multidisciplinary projects from engineering design through procurement, fabrication and commissioning.
- Review and approve engineering deliverables including GA Drawings, P&IDs, engineering calculations, fabrication drawings, equipment specifications, and technical documentation.
- Manage technical proposals, RFQs, BOQs, cost estimation, vendor evaluations, procurement packages, and subcontractor coordination.
- Manage tender bid submissions, post tender clarification and negotiations for government and private entities.
- Liaise with clients, consultants, regulatory authorities, and third-party inspection agencies to obtain project approvals and ensure compliance.
- Supervise fabrication, assembly, FAT/SAT, hydrostatic testing, NDT, commissioning, and site execution activities.
- Monitor project schedules, budgets, risks, procurement status, and resource utilization to ensure timely delivery.
- Ensure compliance with ASME, API, UL, NFPA, ADR, UAE Civil Defense, and RTA engineering standards.

Key Projects:

- | | | |
|---|--|------------------------------------|
| • Emarat Mobile Fuel Units (20ft & 40ft) | • ADNOC Deluxe Mobile Fuel Station | • ADNOC LPG Cylinder Carrier Fleet |
| • 1000IG Mobile Fuel Station (ULG & Diesel) | • UL142 Portable Fueling Unit (PFU) | • Silo-Type Sludge Processing Tank |
| • PFU with Forecourt Management System | • Deluxe Bus Structural Body Manufacturing | • Diesel Storage Tank (MS – GRP) |

Mechanical & Design Engineer

Hilalsan Madeni Eşya Sanayi Ticaret Limited Şirketi – İstanbul, Türkiye ***Nov 2021 – Dec 2023***

- Developed mechanical designs, tooling systems, production fixtures, and manufacturing documentation using SolidWorks, AutoCAD and CAD/CAM platforms for 3D models.
- Designed progressive punch dies, sheet-metal tooling, and mechanical assemblies for mass manufacturing.
- Performed engineering calculations, material selection, design verification, and manufacturability assessments.
- Coordinated with production, procurement and maintenance departments to improve manufacturing efficiency.
- Prepared BOMs, fabrication packages, and technical documentation for manufacturing.
- Participated in equipment maintenance, troubleshooting, and process improvement initiatives.
- Liaised with clients, suppliers, and management to address technical requirements and project deliverables.

Key Exposure:

- Progressive Punch Die Systems
- Sheet Metal Forming & Stamping Tooling
- Production Fixtures & Jigs
- Textile Accessories Manufacturing Tooling
- CAD/CAM Manufacturing Documentation
- Hydraulic Press & Machine tools

Mechanical Design Engineer

Design & Consultancy Services, DCS-- Islamabad, Pakistan ***Sep 2019 – Feb 2020***

- Developed 3D models, 3D drawings and technical documentation for industrial infrastructure projects.
- Performed engineering calculations, design verification, and simulation studies for HVAC ducting & routing.
- Assisted in preparing BOQs, material take-offs, and engineering documentation.
- Coordinated design activities with architects, multidisciplinary engineers and fabrication teams.
- Supported design reviews, drawing revisions, and technical problem-solving throughout project delivery.

Key Exposure:

- Industrial Utility Layouts
- Fabricated Sheet-Metal Components
- Industrial Piping Layouts
- HVAC & Mechanical Service Systems
- Engineering Documentation & BOQs
- Design Validation & Simulation

CAD/CAM & Product Design Engineer

Private Clients – Freelance | Remote ***June 2017 – Dec 2019***

- Delivered CAD/CAM design solutions, 3D models, manufacturing drawings, and engineering documentation for freelance clients using SolidWorks, Creo, AutoCAD, ANSYS and CAD/CAM tools.
- Developed mechanical systems, assemblies, BOMs, GA drawings and production-ready technical packages.
- Performed design validation, engineering calculations, FEA simulation and client-driven design optimization.

Key Projects:

- Design & Analysis of 2-Axis Robotic Arm with 3 DOF
- Industrial Conveyor Belt System with Step Delay Motion
- Heat Sink & Enclosure Design for Efficient Heat Flow
- Adjustable Multi-Link Suspension Prototype
- Design & Analysis of Canal top solar panel system (Multan)
- Design and Analysis of Parabolic trough solar panel system

EDUCATION

Master Of Science (M.Sc.) In Mechanical Engineering

Istanbul Aydın University, Istanbul, Türkiye (Joint Degree Program)

Jul 21 - Sep 23

GPA: 3.81/4.00

Master Of Science (M.Sc.) In Mechanical Engineering**Cyprus International University, Nicosia, Cyprus (Joint Degree Program)****Sep 20 - Jun 21**

GPA: 3.85/4.00

Bachelors Of Engineering (B.E.) In Mechanical Engineering**Air University Islamabad, Pakistan****Sep 16 - Aug 20**

GPA: 2.91/4.00

LANGUAGE SKILLS

• English – Professional • Urdu – Native • Hindi – Intermediate

RESEARCH & PUBLICATIONS

Enhancing user perception through haptic feedback during aerial manipulation Nov 2025

Turkish Journal of Engineering

Providing feedback to a robot user for dexterous manipulation Jan 2023

International Izmir Congress on Life, Engineering, and Applied Sciences 2023

Design & analysis of solar thermal power plant with Rankine cycle Jan 2021
